ACE Recall Study Performance Coaching 2015/16

Adrian coached our son for four months in 2015-16. We chose Adrian to build our son's confidence in learning (he has dyslexia) and improve his study skills. Adrian is very professional. Learning is reinforced in an enjoyable way; core knowledge is easily retained and highly memorable. Adrian offers a safe, supportive coaching environment. As parents we could freely discuss any concerns at any time. Providing real enjoyment in learning, we are delighted with our son's coaching. I would highly recommend Adrian.
