### **ACE Recall Study Performance Coaching**

My son, 'C', was lacking in revision confidence and exam technique but was keen to participate in coaching as he wanted to learn how to study and revise more effectively. C had a desire to achieve in his exams and was motivated to improve his likely expected GCSE results.

Booked coaching dates and times were agreed easily. The coaching and learning materials were useful and made relevant for C. Adrian's style of coaching suited C's needs very well.

Adrian has been friendly and calm and made the sessions relevant to C. He was clear about expectations and provided a supportive environment to allow C to understand clearly and practice the different techniques discussed.

Coaching surpassed my expectations. C's confidence in his own abilities has flourished with Adrian's help, enthusiasm and encouragement. This has been helped by Adrian's keen interest in C's studies and him as an individual.

C's attitude, confidence and application have transformed under Adrian's guidance. C remained calm, focused and purposeful throughout his exams. Thank you.
