### **ACE Recall Study Performance Coaching**

As school has changed so much since we attended many years ago, we were unsure how to best help our child in this era of 'virtual' study rather than text book regurgitation. We wanted to find a way to equip our son with the right tools for modern learning and success.

Our son has been very enthusiastic about what he has learned with Adrian and has had a very positive experience with Adrian. He has learnt a lot about time management and planning and has grown more confident about how to approach the demands of school learning. We intend to come back to Adrian as GCSEs get nearer so that our son can build on the skills already learned and he can be as prepared as he can be for GCSE exam success.

The best thing about Adrian as a coach is that he is very approachable, friendly and calmly confident. I am very happy we chose to engage, and strongly recommend Adrian as a Study Skills Coach.
