ACE Recall Study Performance Coaching

Adrian Finnegan provides a very supportive and encouraging environment to support learners. I chose Adrian to be my daughter's coach because I thought the techniques of learning and studying would help her exam performance. Throughout coaching I was completely free to discuss with Adrian any problems, issues or practical concerns. I am more than happy I chose Adrian to provide coaching.

I strongly recommend Adrian as a Study Performance Coach. The best thing about Adrian as a coach is that my daughter has felt very comfortable and much encouraged by the coaching. It is such a challenging time for A Level students, and support to help them feel more confident about exams is invaluable. The memory techniques Adrian coaches have made a huge difference to my daughter's revision. To learn large amounts of facts has always been extremely difficult for her. Now she can do it with amazing recall and confidence. I have never seen anything that could achieve that previously for her!
