ACE Recall Study Performance Coaching

What I most enjoyed is giving me techniques and tips all the way through my coaching and the practical exercises. The benefits were where, for example, I motivated myself to revise by making my own timetable. Coaching has most helped me study better by giving me a variety of ways which I had never seen before.

I have definitely become a much more efficient and active learner because Adrian (my coach) was always giving me advice throughout my coaching and this has helped me to be more involved with revising regularly but still having free time.
