Reference for Adrian Finnegan

ACE Recall Study Performance Coaching

I originally chose Adrian to coach my son because we felt that he would benefit from specialist one to one coaching and saw good social media reviews for Adrian. The quality of coaching guidance, learning tips and advice was very good. Study performance coaching fitted very well with my child's needs. I was very happy that I felt listened to as a parent and able to discuss freely with Adrian my son's ongoing progress. What distinguishes Adrian and ACE Recall is the personal focus on the individual needs of the pupil. I'm happy we chose Adrian to support my son in his learning and recommend him. My son found the coaching very useful in helping him with revision techniques, organizational methods and effective recall. Adrian is personable and enthusiastic. The sessions are well-structured for students to get maximum benefit.
